LATEST NEWS

PRESS TELEGRAMS.

The following epitome of the latest news by telegraph, from all quarters, is taken from our colleagues—

London, 15th

The Deceased Wife's Sister Bill has passed a second reading in the House of Lords, in spite of the opposition of the Bishops. The Prince of Wales and the Dukes of Connaught and Albany voted for the Bill.

Paris, 15th

The negotiations between France and China about Tonkin are going on favourably.

London, 15th.

Government warned of an attempt to be made to rescue the prisoners charged with the Dynamite Plot, and extraordinary precautions have been taken to prevent it.

The reported poisoning of Mr. Jury, the Dublin hotelkeeper, was referred to in the House of Commons. No poison was found in the stomach.

Rosario, 18th.

The Richmond has brought 300 tons of machinery.

Central Argentine Company has formed a Fire Brigade of 80 men.

Five goods trains started yesterday.

Great storm here.

Business at a stand-still.

Montevideo, 16th.

Grand Orient of Uruguay will give banquet on St. John's Day.

Mr. Bell of the Cuñapiru Mining Company is here, to arrange the Company's affairs. He says the company is not in such a fix as supposed.

Several soldiers are still lying in hospital from wounds received in the fight with the three deserters.

Vandyke has arrived from Liverpool.

WORKMEN'S HOMES.

Squalid misery and princely wealth are unknown in the Plate, but the premonitory symptoms of both are growing with competition and accumulation of wealth. The struggle for life in the Plate is easier than elsewhere, but in Buenos Aires it assumes all the features of populated centres; a fierce competition has seized every walk of life nearly, and there is far more of genteel misery than one is aware of. The able-bodied, hard working man, unmarried, lives in Arcadia; he can afford a bottle of French wine at each meal and during the fruit season he enjoys the luxuries of peaches, grapes, etc, etc. But the same man burdened with a large family lives in one or two small rooms in a 'conventillo,' where all are huddled promiscuously together in an area covering a few square yards.

Hundreds of workmen with their families live in a 'conventillo'; this barracks, often badly built, generally very damp, and always a focus of disease, has the most deplorable influence on the physical and moral status of the working population. There is a promiscuity of social relations that entails a perennial scandal and source of crime. This alone would suffice to advise the removal of these 'conventillos;' but there is a much more dangerous feature in the question, and one that threatens the welfare of the whole community. Theun clean liness, narrow limits and bad hygienic conditions of these buildings in the very centre of the city turn them into foci of disease. Here we must search for the sources of small-pox and other diseases that decimate the population. The removal of these 'conventillos' has been often mooted, but few have suggested any efficacious remedy for this growing evil.

Messrs Muñoz & Assencio, Enginers, have presented through a friend, Dr Navarro Viola, a scheme to the Municipality to build workmen's houses on the latest improved system adopted in Europe. They propose the construction of one thousand comfortable dwellings in the South, South-West and North-West of the city. Each dwelling to cover an area of 10 x 9 metres, with three rooms, garden, and to be let at 300 m/c per month during 15 years, after which term the tenants become the legal proprietors. All these dwellings are to be entirely independent of each other. The plan is excellent, hygienic and most favourable to the tenant, who becomes proprietor of the building after 15 years lease and a monthly payment of 300 m/c.

A tramway will also be constructed for the tenants, who can drive then from any quarter for 1 m/c; the proposed line will run through the following number of streets:—

21	by	Cordoba to San Martin
1	"	San Martin to Paraguay
1	"	Paraguay to Paseo de Julio
9	"	Paseo de Julio to Rivadavia.
12	"	Rivadavia to San José
20	"	San Jose to Sola (Barracas)
14	"	Sola (Barracas) to Presidente
1	"	Presidente to San Antonio
5	"	San Antonio to Puentesito
2	"	Puentesito to Mondoza
2	"	Mendoza to San Antonio
1	"	San Antonio to Lavadero
1	"	Lavadero to Salta
1	"	Salta to Herrera
1	"	Herrera to San Luis
2	"	San Luis to Mondoza
3	"	Mendoza to Defensa, limite
4	"	Defensa to Vuelta de Rocha (Boca) and Calle de Garibaldi
1	"	Garibaldi to Pintos
1	"	Pintos to Nueva Granuda
3	"	Nueva Granada to Delicias
1	"	Delicias to Garibalbi
4	"	Garibaldi to La Madrid
6	"	La Madrid to Santa Teresa
3	"	Santa Teresa to Resguardo and Santa Teresa
1	"	Santa Teresa to Olavarria
1	"	Olavarria to Necochea
1	"	Necochea to Suarez
8	"	Suarez (Boca) to Defensa
8	"	Defensa to Suarez (Barracas)
1	"	Suarez (Barracas) to Bolivar
2	"	Bolivar to Patagones
1	"	Patagones to Piedras
17	"	Piedras to Rivadavia
6	"	Rivadavia to Uruguay
14	"	Uruguay to Talcahuano
3	"	Talcahuano to Ayacucho
8	"	Ayacucho to Paraguay
6	"	Paraguay to Ecuador
198	squares	

A branch line of this tramway will run through:—

9	squares by	Independencia to Pichincha
10	"	Pichincha to Castillo
5	"	Castillo Entre Rios
3	"	Entre Rios to 2ª Armonia
5	"	2ª Armonia to Santiago del Estero
7	"	Santiago del Estero to Cochabamba
5	"	Cochabamba to Piedras &c. &c.
43	squares	

Thus every facility is offered to the working man; cheap dwellings with ample accommodation; the proprietorship of same by monthly payments of 300 m/c rent; and cheap tramways all through the city. Nothing could be more favourable to the individual and to the community. The proposers, meautime, request from the Municipality:—

1º.—Concession of the tramway.

2º.—Exemption of taxes in the workmen's quarters during 15 years.

3º.—Preference in any concession for the construction of markets, &c., within five squares of the workmen's quarters.

The privileges requested are small when compared to the immense advantages of the scheme. At the rate the population of this city is increasing something must be done for the helping of the poor man; rents are advancing in an extraordinary ratio; families in middling circumstances cannot get a fair house under $2,000 m/c per month; this rise in the rents is becoming so extortionate and is so far beyond the relative advance of the value of property that very many people are leaving the city to live in the suburbs, and may well imagine what is taking place with the working man; his numbers are swelled by the daily arrivals of emigrants. Space is becoming crowded and rents are going up fast as the demand is increasing. This state of affairs is occasioning not only much discontent but is preparing misery and disease for the large numbers living in the crowded "conventillos." The Lord Mayor should study the proposal submitted to him and recommend its approval to the Corporation. Sooner or later the "conventillo" must be removed; better now than later, or when some contagious disease may have decimated the population; forewarned is forearmed. We move that the proposal of Dr. Navarro Viola be accepted and that every "conventillo" in the city be razed before the end of 1884.

THE ENGLISH LITERARY SOCIETY.

The Revd. J. F. Thompson will read a paper this evening at this Society's Rooms on the subject of "Capital Punishment," and doubtless the reputation of the Revd. gentleman as an able speaker, and the interest attaching to the subject he purposes treating, will attract a considerable number of members.

We happen to know the view Mr. Thompson takes of this most important question, which is that of all right thinking men. The Revd. gentleman is an advocate in its favor.

The recent instances of misdirection of the administration of justice in cases of murder, attended with circumstances of exceptional brutality, have made it evident that the legislators of the Argentine Republic do not consider it necessary, as a general principle, to adopt "Capital Punishment" in case of the crime of taking the lives of fellowmen.

The question is fraught with more importance than President Roca and the members of the Government seem to consider, and unless a fast and firm decision is definitely adopted, to rigorously administer the punishment of death to all murderers and assassins, throughout this country, who may be found guilty of the crime with which they are charged, the Argentine Republic will fail to receive that influx of emigration, in coming years, which is essential for the welfare and advancement of the country.

Little is known of the River Plate Republics in European circles, except amongst those who have business connections with South America; and therefore it is of vital importance to this country that it should give an absolute guarantee for the security of life and property to those intending to settle there, and when we say "absolute," we mean of as binding a nature as is expected from the best organised states of Europe.

A late Secretary to the British Legation at Buenos Aires has said that the Secretary of State of Foreign Affairs, when asked by intending emigrants to the Argentine Republic whether he is in a position to recommend that country invariably replies that, persons journeying there must do so entirely on their own responsibility, and that the Government of Great Britain cannot commit itself to any recommendation carrying with it the slightest guarantee of security either for life or property.

It is to be regretted that such an impression as this guides the Government of England, and it therefore behoves the Argentine Republic to consider well the position it occupies in the minds of enlightened European Governments, owing mainly to its neglect to administer capital punishment in cases in which it is absolutely called for both by the law of God and man.

We make the above observations feeling confident of the view the Rev. Mr. Thompson will take, and we trust that this evening's proceedings at the English Literary Society may not be without their good effect on the Government.

THE COLON THEATRE.

CARMEN.

The first performance of Carmen, in Paris, took place in 1875. The plot is taken from one of Prosper Merrimee's novels, and has been applied to comic opera. The subject is not very favourable for theatrical handling, especially in comic opera form. The chief personage, Carmen, is not a pleasing one, and, in the whole play, the only attractive character is Micaela—a milk and water one.

The disagreeable nature of the plot is, naturally, reflected in the music; yet we must admit that Bizet's composition is interesting, but, to be appreciated on its true merits, it must be heard several times. The orchestration is masterly. In the first act, where the guard is relieved, the prominent feature is the "Habanera," which Madame Ferni sang and acted with infinite grace, accompanied by the orchestra with charming effect.

In the second act the most striking peculiarity is the cleever contrast between Carmen's dance air and the military march (the retreat), which are combined with great art. We may also mention the bull-fighter's song, the first part of which is the best; the card trio, a perfect gem of composition; the orchestral 'bolero,' which serves as an introduction to the fourth act, and finally the murder duo, which is very dramatic.

Madame Ferni makes the role of the brazen-faced Carmen one of her best impersonations, or rather creations. It would be impossible to interpret the strange character of the gipsy, even to the slightest gest, with greater talent than Madame Ferni does.

The tenor, St. Petrovitch, fills his role conscientiously, and proved himself a good comedian in the final duo. He also sang his couplets in the second act, behind the scenes, very well; these few phrases are without accompaniment, and we could remark how accurately he finished them.

The "mise en scene' does high honour to the management of the Colon Theatre, and the orchestra acquitted itself as it always does—splendidly.

The audience, in general, were very apathetic; but this does not surprise us in the least, as we have often seen this same public as indifferent as possible at the first performance of the Huguenots, Don Giovanni, Der Freyschutz, etc; and, as we have already said, one must become accustomed to the composer to appreciate him justly.

Carmen is a composition of undeniable merit, and its progress in popularity since 1875, its translation into so many tongues, and its performance in so many of the first theatres in the world, is an irrefutable proof of it.

LONDON LETTER.

(*From our own Correspondent.*)

IRISH AFFAIRS—EXECUTION OF BRADY.

May 18th.

"Brady is a fine man," the Irish said. So he was in one sense. He was a tall, well-built, thick-necked ruffian, who could use a transfixion knife so as to astonish the medical men who saw his victims, by the thoroughness and cleanness of his method, leaving a neat gash in the back and a small blue point on the breast. With the courage of his opinions he could deliberately leave the well-finished Lord Frederick Cavendish and complete Kelly's work by cutting the throat of Mr. Burke, and then calmly wipe his knife on the grass. This courage, such as it is, stood him in good stead to the last. According to an eye-witness, one of the few who were present at the execution, Brady never wincsd. Without a word or movement, he allowed the little, wizened old Marwood to pinion him in the condemned cell, and telling a warder, in an authoritative tone, to "take that book"—his own book, the "Key of Heaven"—he walked firmly to the scaffold, aud without even saying farewell, he fervently kissed the crucifix and submitted to his fate. The technical preparations made by Marwood in this case were very complete and successful. Instead of forming a noose with the rope itself, he made a coil through a brass thimble, and thelength of the rope fell down the convict's back. Marwood placed the knot under the chin to the right. By this method death is not caused by direct strangulation, as in Calcraft's old plan, but as the first impact is on the jaw, the head is thrown violently back, dislocating the first two vertebræ, thus destroying the spinal cord in the region where respiration and other functions take their sourse. The solemn litanies of the priests, and the audible responses of Brady, seemed to be still ringing in the ears of the awe-stricken byestanders, when the vigorous man disappeared into the pit, a drop of eleven feet, and is supposed to have died instantaneously. When examined, at the inquest, the body lay on a table under the scaffold, and was dressed in a new suit of dark grey tweed, with red socks and house shoes. The vest was low cut, and the coloured shirt was secured at the throat with a gold stud. The expression on the face was calm, and there was not the slightest trace of pain on the features, which were, however somewhat puffed and had a bluish tinge. On the neck there was a slight abrasure of the skin from which a drop or two of blood had oozed—the hands were very white and soft.

Thousands of people were in the neighbourhood of Kilmainham, and some were even on the spot where the murders were committed in the Phœnix Park, waiting for the hoisting of the black flag. No mock funeral or other demonstration occurred. Brady was one of a family of twenty-five childaen, and had naturally many mourners. Masses were offered up at the several Roman Catholic Churches for the repose of his soul, and the family held a wake, the grief displayed being of a most distressing nature, and the cries for revenge and the expressions of hatred of England were loud and intense. Even in Protestant churches prayers were offered for Brady and the other convicts, and some among the smaller shopkeepers of Dublin went as far as putting up their shutters as a mark of respect for the deceased. As soon as the black flag appeared above the gaol the women wailed and there was a general cry of "hats off" and even of "kneel down." A cross of flowers was sent to Brady's relations from the Irish in Liverpool, as "a token of grief." At the last interview with his friends he promised not to make any statement on the scaffold, and Mrs. Brady threatened to disown him were he to open his mouth for the information of the Government. Classic matron!

From this tale of heroism, it is painful to turn and notice a report that the patriot who in New York has been assiduously supplying the British Government with its information, and who was supposed to be Mr. Tynan—No. 1—is now said to be O'Donovan Rossa. The Irish in New York have decided that prompt reprisals must be taken for the "removal" of Brady. They think that an English Governmant official should be captured and held as hostage to secure a fair trial for the rsst of the prisoners. A certain Mr. John Warren suggests that the Governor of Canada "would do." A Mr. Breslin rejoices in the fact that Brady leaves nineteen brothers, and surely one of the lot will have pluck enough to hang the Lord Lieutenant. But these gentlemen have lost all credit in America. For example, the trustees of the Brooklyu Bridge refuse to alter the date of its inauguration on the 24th of May, because it happens to be the birthday of the Queen of England, and just to please the "Irish race." The trustees appointed that date for their own purposes, and, of course, without troubling themselves, or thinking of the birthdays of any European Monarch. A sympathising band, however. of American workmen, the spokesman of whom is a Mr. M'Cabe, who tells us he is a *bona fide* American, begotten by a Scotchman out of a "wild one"—by which I understand an Indian lady, are of a different opinion in regard to the date of the opening of Brooklyn Bridge. But it is worthy of remark, and of the serious attention of Americans themselves, that the objections of Mr. M'Cabe and his friends are founded on the presumption that there are Monarchical tendencies in N. York—that there are too many carriages in Fifth Avenue, and some of them have "crests" on the panels.

The Pope has addressed a circular to the Irish Bishops, condemning Mr. Parnell and the agitators. Croke, Archbishop of Cashel—and Parnell's bishop is in Rome and has made his submission to the Holy See, and on his return to Ireland is to call on Cardinal MacCabe—the Pope's bishop. To say the truth, the Mission of His Holiness is a milk-and-water sort of affaia, and is, perhaps, the grand result of Mr. Errington's "Mission;" and will have no more effect on Irish politics than waste paper.

Daniel Curley, the second of the Phœnix Park assassins, was hanged this morning.

Fitzharris—"skin the goat"—was found guilty of being accessory after the fact, in the Phœnix Park case and has been sentenced to penal servitude for the remainder of his life.

One of the saddest results of the folly and wickedness of the Irish party of blood and murder is the disgust they have created amongst the English working classes, who, until lately, were the staunch friends of the Irish people. Some Irish navvies working near Hull, have just been driven away by their English fellow-labourers.

PARIS LETTER.

(*From our own Correspondent.*)

May, 19th

As the future of France is next to bound up in her labour question, it is important to follow all that can throw light upon the subject. Since ten years strikes have been chronic in the land; the workmen have invariably dictated the conditions of the solution. Wages have so run up in price that it is no longer possible for France to compete in the foreign market with Germany, Switzerland, Belgium and England. This explains why 10,000 men are at the present moment without work in Paris, and the others on short time; why the building trade, which directly and indirectly gives occupation to one-half of the skilled labor in the capital, is in a state of stagnation, a consequence temporarily deplorable but eventually beneficial, and why home capitalists cease to invest, or place their money in foreign undertakings.

Workmen's Congresses so far have disappointed expectation. Since seven years the artizans have been perfectly free to hold their annual congresses, and they had the ear of the public, acquired in advance in their favor, only too anxious to listen and to aid any feasible measures of amelioration. But the workmen have belied the promise of their spring; their incapacity to grapple with remedies was notorious; wild theories replaced practical reforms, and extreme politics, personalities and violences, completed the deception. The French workman demonstrated his terribly dark ignorance, and a total inability to lay his case before a favorably inclined public.

Paris is just now holding a workmen's annual gathering; forty-five trades are represented, each making known its situation and propounding its panacea. To these were attached as so many parasites, the rank and file of socialists, with names as bizarre as their doctrines. The only party that knew its mind was the anarchists; their programme is, to destroy everything, and in chaos and confusion find contentment and happiness.

The general character of the papers read revealed a bitter animosity against employers; the limitation of the time of work to eight hours with undiminished wages, the exclusion of foreigners from the labor market, and the prohibition of manufactures and products from the stranger. The Utopias range generally on the duty of town councils to feed, clothe and lodge the unemployed, or provide them with work; to allocate the unlet mansions of the rich for the housing of the poor, and to abolish machinery. The members of parliament were only so many pigs' puddings, or rascals; the fortifications of the capital ought not to be demolished, as the future commune would have need of these defences. A cooper views all provision dealers as simply poisoners, with Borgia for their patron saint; a blacksmith suggested the abolition of gold and silver; a tinsmith, strong in mathematics, demonstrated the longer the hours of labor the less the work produced; while an ex-actor considered lawyers the cause of the world being out of joint, etc.

The Suez Canal dispute is settling down into an anti-English question, as a means of thwarting John Bull for not dividing his Egyptain gains with Monsieur, who had backed out of the risks. In the administration of the existing, as well as in the execution of the second canal, the watch-word seems to be—exclude the English—the nation who holds nearly one-half the stoek and supplies by her shipping the four-fifths of the receipts.

On the fourth of June next, when the Suez Company will hold its annual meeting, M. de Lesseps will, it is rumoured, announce that he intends commencing a second canal, a return line, close to the existing route, and that all the capital, 125 million francs, has been subscribed by Frenchmen. All this does not meet what England demands, representation on a canal, claimed to be international, notFrench, for herself and other maritime powers, *pro rata* to their shipping passing through. On the Council, composed of some 28 or 33 members, all are French, save three Englishmen, and who are there by toleration, not by right. All the functionaries are French and all are at the nod and beck of M. de Lesseps.

If the exclusively French character of the international canal is to be maintained, and England, Spain, Holland and perhaps Italy, that send more tonnage through the canal than France herself, to be left out in the cold, Englishmen in order to compel an arrangement, will be fully justified in forming a rival company; they can find the money to construct a canal; can secure the concession; can offer a reduced transit traffic, and can thus jeopardize the prosperity of the present, and ensure the collapse of the projected second French canal. When diplomacy, when a Conference of four has solved the navigation of the Danube, it ought to be equal to the task of securing, without detriment to shareholders, international representation in the administration of the international canal, which has a high political, as well as a money-making side.

ROSARIO.

(*From our own Correspondent*)

June 15th.

The project that the Minister of Education has sent to Congress asking for authority to sell the building of the National College in Rosario, and with the proceeds of its sale purchase or build a suitable locale in a central part of the town, is much approved of here. In its present situation the College might suit for boarders and half boarders, but it is now some years since the authorities decided against receiving "internos" in the National Colleges, which in consequence should be placed in a central position within easy reach of day scholars. The history of our Rosario National College is a melancholy one, and shows the consequences of persisting in an erroneous policy. The building cost some $f. 60,000, and the authorities at first accepted boarders. Notwithstanding its distance from the central part of the town, the classes were pretty well attended by about 450 boys. Then the Rector, Mr Coronea Martinez, plunged into politics with the result that all the respectable families removed their children, and there were some scandalous proceedings. The evident duty of the Government was to remove the Rector; but he was a political partizan, and it appears that our Governments look on Rectorships of their Colleges in the light of political perquisites. Mr. Corona was deposed by a dreader authority, Death; and when the public looked forward to a prudent choice of a Rector who would inspire the respect of all parties, the Government appoints a rabid partizan, editor of a paper, a good political writer, but wholly incapable of filling such a delicate post, and moreover one of the most unpopular men in the province. So what with an unpopular Rector, who does not command the respect of the community, and the distance of the College, since the nomination of the present Rector, the corps of Professors have on an average three boys a piece to teach.

The information that Mr Fisher furnished you in reference to the speedy augmentation of the rolling stock of the Central Argentine is welcome news to our commercial community. The great pressure of traffic came so suddenly that no railway in the world could have been prepared for it. Still the administration of the Central very soon was able to meet it by the rapid construction of rolling stock and running trains night and day. It is the poverty of the rolling stock of the two National lines that has given all the trouble, the Andine monopolizing continually a large number of Central Argentine waggons, while the Northern is utterly unable to carry away but a limited proportion of the merchandise for the Upper Provinces, the consequence is that the agglomeration of goods in the station at Cordoba is so great that the Central Argentine has at times been obliged to refuse to send them on from Rosario, not on account of want of waggons but because there is no more room for them in the station at Cordoba where more Central Argentine waggons, are actually used as deposits. Still, the severe pressure of late on the rolling stock of the Central has taxed it too severely, and the fresh supply of all kinds, from locomotives to trucks, is very much needed, and will enable the administration to assist the Andine National line to a greater extent. I understand from Mr Fisher that although only two locomotives are on their way out, seven more are ordered.

I am informed on reliable authority that there is merchandise for Tucuman lying in Cordoba since the month of April; and it is seriously contemplated forming, amongst the merchants and sugar-growers, 'tropas' of ox carts to and from Cordoba. They argue that an ox cart will make the journey in 16 days, and by the train the goods are delayed from one to two months on the road. The people in Tucuman are losing heart. They are beginning to think that their narrow-gauge line, without a thorough over-hauling, expensive repairs and a suitable dotation of rolling stock, will never be of much use to them. Hence they are about to recur to the mule and ox. When the extension to Santiago shall be completed the strain will, of course, be much greater. I think it is time that President Roca and his Cabinet should take into consideration the necessity of building a broad gauge line between Cordoba and Tucuman. For this purpose they should sell the present line to wealthy capitalists who would make the new road.

I read in the *Standard* a few days ago an article on the cheapness of all kinds of food in Buenos Aires. I am sorry to say the same remarks will not apply to Rosario, particularly in reference to bread and meat, in the sale of which articles there exists a close ring unmolested by the Municipality and apparently unnoticed by the community. We send our surplus wheat to England, and pay about three times more for our bread than the Londoners do for theirs. Three pounds of flour make four pounds of baker's bread. The price of flour here is say about 4 cents Boliviano the pound. The three pounds thus costs 12 cents and the bakers make the public pay 50 cents for the four one pound loaves made from it. There is a grand opening for an independent baker in Rosario who would be satisfied with a moderate profit. He would get the greater part of the business in the town; but he must bring his own workmen, and have them interested in the business with him, otherwise the Ring would entice them away. One would imagine that such scandalous robbery would not be tolerated; that the Municipality would find means to break a combination that speculates on the sale of such an article as bread. I wrote an article in the *Capital* drawing attention to these facts, and stated the way how home-made bread could be made, with an economy of from 50 to 70 per cent.; but it was like preaching in the desert, and you may be sure the bakers did not open their lips; they depended upon the supreme apathy of the community and the indifference which has been created by the long series of scandals perpetrated with impunity in this Province.

The *Capital* has initiated the idea of an Industrial Exposition in Rosario, similar to the one just held successfully in Mendoza. The idea has not yet germinated, but with a little effort on the part of some of our influencial merchants I should not wonder if it fructifies. For this sort of thing, however, it is the Italian element which will insure success. They almost monopolize the article we call Public Spirit. In the "Club Industrial," the ruling spirit is Italian. Let such representative merchants for instance as Messrs. Maspoli and Chiesa put their shoulders to the wheel, and it is not at all improbable that Rosario may inaugurate an Exposition that would attract contributors and visitors from every part of the Republic.

MAJOR HOWARD'S REPORT.

GENERAL ASPECT.

(*Concluded*)

Its position, formation and dimensions have undergone very apparent changes since 1833, when Captain Fitzroy published his chart.

Many of these banks cannot be seen at low tide, consequently the greatest vigilance is required to keep clear of them. The Commission have had to devote the greatest attention to define exactly the position of these hidden dangers, in order to mark, by a practical knowledge, the true course which the mariner should steer when entering this safe and spacious port.

Without a doubt, this is the most important study in drawing up a chart, as also the true value of same.

Once past the "Gaucho" and "Toro" banks the Bay assumes the appearance of a river having a great depth.

The navigation of this passage is made at a mile's distance from the coast, as far as Punta Cigueña, and this is the reason why the mariner meets with no buoys throughout its extension.

Four miles from Punta Cigueña lies Punta Alta, facing which lie several banks which make the course of the channel very intricate; but there are two buoys, which, steering from Punta Cigueña, perfectly mark out the course as far as the "Arroyo de las Tres Brazas" (three fathom Creek), where a new buoy will be found. Passing this, two more buoys are met with, which fetch the mariner to the genuine anchoring grounds of the port of Bahia Blanca.

In the navigation of the Arroyo Las Tres Brazas the crab banks commence—entire banks of "fango," of which the north as well as the south sides are composed, beginning at Punta Alta and running inwards.

Their extension towards the interior is sometimes of considerable length and their width varies very much, judging by the experiments effected in different places.

These lands are daily covered by the tide and can never be dry. On them grows a species of rushes two feet in height, which in the temperate and warm seasons present a smiling aspect. It is through these that the stream Naposta flows, which leads up to the landing place.

In a word, the port of Bahia Blanca and its immense bay constitute to-day one of the most spacious American ports, and that which offers the greatest security to the mariner; vessels of the heaviest tonnage can easily enter it, and it will be, without doubt, the key to the commerce of all the rich and fertile district which the South of Buenos Ayres comprises.

Resumen.—To conclude, Mr Minister, in this expedition of ten months the plans of the bar and port of Bahia Blanca have been completed, and all the modifications made since 1833 introduced. The port has been buoyed, leaving it completely accessible for vessels drawing 30 ft. at low tide. A lighthouse has been erected on the top of Monte Hermoso, and, though of a provisional character, notifies the mariner of his proximity to it at a distance of 12 miles.

A deep study regarding the oscillations of the barometer and thermometer in this place has been carried out. The best locality for the construction of a mole, after a lengthened deliberation, has been chosen—a site already accepted by the Committee of Engineers engaged for the prolongation works of the Great Southern Railway; and, finally, with a thorough knowledge of the subject, the Commission have laid before the War Office their views regarding the construction and placing of a light-ship.

The Committee have yet to submit for Y. E.'s approbation their views regarding docks and workshops, the project of which will be concluded in a short time.

The Commission, awaiting the authorised decision of Y. E. regarding the works effected, have the honour of offering to Y. E. assurances of their most esteemed consideration.

God guard Y. E.

A GLIMPSE OF MR. WILDE.

We were invited to breakfast with Oscar Wilde, last summer, while at Saratoga. The place selected for the morning revel was the top of Mount McGregor, a snburb of Saratoga, which is reached by a pretty little railway completed during the past season. The feast was spread on a temporary platform erected over a ravine, while under our "dining room" floor a little brook made music and caused Mr. Wilde to speak of Tennyson's poem on the same. The "ideal breakfast" was composed of sixteen courses, interrupted now and then by toasts. When the Queen was toasted our friend from over the water rose and objected, which was regarded as strange by some present. He remarked that the Queen was the most untidy woman in the United Kingdom.

Among other things Mr Wilde said was the following:—"That our western miners are the only persons in the United States who were the correct cross!" That "Los Angelos was the prettiest name he heard in America." "That American women were rather rude as a rule," which made several ladies present very wrathful. In fact, if his conduct and remarks on this occasion were an example of Æstheticism, then Heaven grant Americans may never adopt it. At the conclusion of the breakfast a short stroll was indulged in, and our escort informed us that if we had sat through another course he was sure he would have knocked Mr. Wilde down. What a fate it would have been for the Englishman.

GREAT EMPIRES OF THE EARTH

(*London Echo*)

Apropos of the "land-hunger" which appears to be troubling more than one nation at the present time a few figures may be of interest: The five principal nations of the world at this moment, in point of territory, are the British, the Russian, the Chinese, the Brazilian and the United States, in the order above mentioned. The British Empire (according to the last edition of "Whitaker") covers 8,982,177 square miles of the earth's surface. Russia may be said to stand alone with England in the first class of states embracing large areas. Hers amounts to 8,325,393 square miles. The Chinese Empire is said to cover, in round numbers, 4,540,000 square miles. For Brazil and the United States the figures are, respectively, 3,288,000 and 3,002,852 square miles. With respect to population, the British Empire still comes first, with 305,400,000; the Chinese, according to the latest estimates, would come second, with about 270,000,000; the Russian third, with 100,038,342. The population of the United States in 1883 is reckoned at 52,000,000. In this particular race Brazil is nowhere, her population numbering about 10,200,000 New Guinea is not included in the foregoing estimate of the superfices of the British Empire.

ABDICATION OF THE RAILWAY KING.

At the meeting of the directors last week in New York, Mr. Vanderbilt resigned his presidencies of the railroads with which he has long been identified. His sons virtually continue to shape their future policy. The change is modelled after the English system, the directors being clothed with powers new to American railway management. The new presidents are simply executive officers. The retirement of Mr Vanderbilt is generally regarded as an indication that he has disposed of most of his stock of the principal lines. His career has been profitable to himself, and the fortune left him by his father has probably been doubled. It is estimated now at 175,000,000 dollars. Over a hundred millions of this are invested in securities which are convertible into cash immediately. His sons have also gained large fortunes by his aid. He sailed in the Britannia on Saturday, intending to return immediately in the same steamer. Then he will start again with his family, and spend the summer in Europe. He says his health is good, but that he enjoys being on the sea.—*New York Paper.*

EDITOR'S TABLE

Sunday was a detestable day, and yesterday was twice as bad. Wilkie Collins's Damp Woman was as dry as a bone compared with River Plate humanity, men, women and children yesterday. The Clerk of the Weather has so disgusted us that we mean, for the future, to treat him as some of our Montevidean colleagues do suicide—ignore his miserable existence. The only thing that reconciled us to the miserable aspect of yesterday was the recollection that, on the same date, 68 years ago, in far worse weather than yesterday's, the "King-making victory" that gave nearly half a century's peace to the world was won.

The Hon. Treasurer of the British Hospital begs to acknowledge the sum of $15.007 m/c., from E. Casey. Esq., Treasurer of the Race Meeting given in favour of the British Hospital and Irish Orphanage, being half the amount of the nett proceeds.

We received another wail of woe yesterday from a subscriber to whom a letter posted in Montevideo on the 10th inst. was delivered here late in the evening of the 16th!! This is shocking. We cannot say whether the contents of the epistle were love or business, but in either case the delay is inexeusable.

The Revd. Mr. Thompson lectures this evening, at the Literary Society's rooms, on Capital Punishment, which is sorely wanted in this country. The worst feature of the case is that the Law provides capital punishment for murder, but soft-hearted old women of both sexes have sufficient influence to interfere successfully with the Constitution. It should not be so,

In spite of the bad weather, Palermo and the Recoleta were crowded on Sunday with "haut ton" folk, who all came rattling into town about 5 p. m., at the full stretch of their cattle, a snobbish and dangerous proceeding that will lead to an almighty smash in Calle Florida some fine evening. It is shameful to allow such furious driving in our narrow streets.

The best cigarettes in town are "Vanity Fair." We have it on the authority of two prominent brokers and a leading banker. Both "gremios" are splendid judges of Tobacco and Port wine.

A Rio colleague says:—"There is a considerable supply of counterfeit butter now coming to Rio and we can recommend one kind in tins labelled "Prime Preserved Holstein Butter—J. W. Siebel, Kiel," and decorated with an enticing picture of a big cow, a plump milkmaid and representations of eight prize medals, as being of most excellent quality—cart grease."

Here's a tempting offer for some of our River Plate land men:—"A novel advertisement appeared in the *Caps Argus* the other day, offering for sale one of the Fiji Islands. The island was represented as being exceedingly fertile, and as producing 'nearly every article of commerce'! The advertisers held out the enducement that the proprietor might become a second Alexander Selkirk, and be the actual monarch of all he surveyed. All reference to the cannibalistic tendencies of the Fijians was, however, judiciously omitted from the announcement. Whether a sale has been effected has not yet transpired. There is also an island off the Italian coast for sale, with the title of "king" attached to the bargain. It is somewhere in the neighbourhood of Monte Cristo, we believe, and the "king" who buys it could recoup himself by selling titles of nobility at a reduction on the Italian prices." We know a subscriber who was once in Fiji, and can give all particulars.

Our friend Moses gives his opinion of Carmen in another column. Our opinion of it is that it is nice, that it was very well sung all round, that the public were most unfairly chilly with the artists, and that French comic opera is never likely to be a success at the Colon Theatre, no matter how good it may be.

The Prince of Wales once received a diverting reply from the Mayoress of a county town, whom he offered to escort to the refreshment-room. "Thank your Highness," said the dame, "but I'm *shampooing* a couple of young ladies, and I don't like to leave them."

Dr Montero, Finance Minister of Entre Rios, leaves to-day for Concepcion, and some of the papers say he intends to resign his portfolio the moment he lands, as he and Governor Racedo dont agree as to how the wind is to be raissd to keep Entre Rios going.

A morning colleague, in translating Major Howard's report from our columns, styles him "Major Howard of the English Navy." Oh! confrere, you don't know that the Major is one of the best officers in your own navy. We have no Majors in the British Navy.

The Niger's passengers were released from quarantine on Sunday. Deep commiseration is expressed for the Tamar's passengers, who must have had ineffably detestable weather since they embarked on Saturday.

There are lamentable advices from the South. The whole country is flooded, thousands of lambs lost, cows selling at 150$ m/c, and good sheep at 23$ m/c. This is really very damping intelligence.

In spite of the bad weather yesterday, there was a large and influential attendance at the interment of the late Mrs Blancas, wife of Dr Blancas, showing the general esteem in which the lamented lady was held.

Oh! my prophetic stomach! The suburban roads are in such a truly awful state that it is feared, if the rain continues, there can be no cattle or sheep driven into the Corrales, and we shall all have to live on anything we can get.

Messrs Lacroze are building a grand Swimming Bath in Calle Piedad, next the L. and R. P. Bank, and it will be ready for next summer. This will kick the bottom out of the Belgrano Bath tub.

We regret to announce the death of Dr Beruti, a most estimable Argentine gentleman, and who was a most active and indefatigable member of the last Municipal board. Dr. Beruti belongs to an ancient family and leaves a very large fortune.

The death of Mr Charles H. Halbach was announced yesterday. The funeral takes place to-day at 11 a.m.

A party who was stopping at the Good Soup Hotel lost $10,500 m/c the other day in an unpleasant way. He sent his waistcoast to a tailor by a peon, to have a button sewn in, and while the man was away he remembered that there were $10,500 in the inside pocket. He waited in a cold perspiration till the man came back, he tore the "veskit" from the peon's hands—the cash was gone! The peon and the tailor swear they saw no money, and the loser has been unable to eat any soup, good or bad, since.

The Commissioners appointed to report on the Belgrano market say that it is badly built, in an unhealthy situation, and by no means a fitting home for beefsteaks and mutton chops, to say nothing of the lordly sirloin.

The Bearn sailed yesterday, taking 250 third class passengers, all Gauls and Ligurians returning home for a trip, with money in both pockets, and consequently, even better emigration agents than Hector Varela himself. These 250 successful passengers will bring back with them 2,500 of their countrymen.

"John," said the cashier's wife, dropping into the bank in the midst of a shopping trip, "you forgot to [illegible] me that money this morning." "What name?" asked the cashier, without looking up. "Name! name!" exclaimed the lady. "I am your wife." "No doubt, no doubt," answered the cashier mechanically, and going on with his writing, "but you will have to bring some one to identify you."

Facts

The Cliché adjoining is a perfect representation of the Mandrake Plant, now so extensively recommended by the most celebrated practicioners for all diseases of the Liver.
This famous curative is largely employed in
Dr. Schenck's
Mandrake PILLS
And which has made them so favourably known by the great number of cures of Liver complaint in this country during the past few months. The number of Physicians constantly using them for what are known as chronic and incurable liver troubles, attests their great value in all cases of this kind. The suffering can make no mistake in trying them, as they are purely vegetable and harmless.

ON 'CHANGE.

June 18th, 1883

Patacon	25.00
Cedulas E	83⅝
National Bank Shares	103⅞

In spite of the very inclement weather the ring was crowded this morning, and operations were very active in Cedulas, and rather dull in National Bank Shares. Both bulls and bears had a light struggle in Cedulas; the numerous buyers of the stock for the end of next month gave a buoyant feeling to the stock, and prices were well maintained for cash and for the end of next month.

A rumor was spread that the Board was already discussing the nomination of the employees of the Bank's new offices in London and Paris. Whether this be true or not matters little, but it appears that favorable advices are received from Europe. The market is little influenced by these reports.

Close on 500,000 Series E were sold during official hours. A few thousand changed hands for cash at 83⅜ and 83½. About 200,000 were sold for the end of the month; rates opened at 83⅝, dropped to 83⅜, rose to the opening rate and closed at 83⅝. Over 100,000 were sold for the end of July at 83½ and 83⅝. Ten thousand were sold for to-morrow at 83½. The market rules very active and prices are pretty well maintained.

The bad weather seems to have interfered with speculation in National Bank Shares. Operations during official hours amounted to 850 shares; one hundred and fifty changed hands for cash at 103⅞, and seven hundred were sold for the end of the month at 104.

There is some talk in the market of the formation of a joint-stock company to take over a very large tract of land situated in this Province.

Four square leagues of land near Bahia Blanca and on the Naposta River have been bought by a leading capitalist at $430,000 % per league. This is the highest price ever paid for lands in Bahia Blanca.

The City Improvement Works will begin in a month's time at all the sections, and will be pushed ahead with the greatest activity. These great works will be finished before 3½ years. It has not yet been decided whether the severage will be passed through a tunnel under the Riachuelo, or over it by means of a viaduct. Messrs. Devotto, the contractors, are already subletting the works in sections to various parties, chiefly Italians. Mr. Nystromer, as representative of Mr. Bateman, has already named his assistant engineers to superintend the works of the different sections. Mr. Pembroke Jones, C.E., will be in charge of the principal section.

Mr. Walter Mothersill, who arrived round from the West Coast, has left for a short trip to Entre Rios to the great Black estancia.

Dr. Domingo Muñecas, ex-Governor of Tucuman, is here on a visit to this city.

Some subscribers up from the South report the camps in a most flooded state. The Ranchos, San Vicente, Samborombon and Chascomus districts, are in many parts covered with water and many farmers have had to move their flocks. Many of the elder estancieros say that the weather now is like what it used to be in the days of Don Pedro Sheridan and Don Juan Hannah; the winters then were always very wet, and it is only in more recent years that we have had dry winters in this country. Wet winters they say always mean prosperity, abundance, and a most favourable spring season and, although, the streets are covered with mud, and the low camps in the South inundated, the wet winter augurs well for the whole country and the now enormous agricultural colony interests.

There was great talk in the market this morning about the excellent article in this morning's *Republica* about circular letters of credit. We shall translate and publish the article in question, as the matter is of great market interest. As a rule, circular letters of credit are not much in favor in this market.

Mr. Sewell was welcomed on 'Change on his arrival from Concordia. Mr. Thomas Agar, the managing partner in Glasgow, of M. Forrester and Co., will leave for Europe on Thursday in the Maskelyne.

The Villarino will leave for the South ports about the 28th inst. She will go this time down to Chubut, Santa Cruz, and Port Deseado, so that her return next month will be much delayed.

The National Treasury has paid to Sr. Achaval for the extension Railroad works from Tucuman 120,000 pats.

Mr. C. W. White, of London, and Mr. G. Oeste, of Copenhagen, were welcomed to-day on 'Change.

Messrs. Baltar & Quesada's fine auction mart has been reopened. Mr. Quesada remains at the head of the mart, hammer in hand.

Mr. Gregorio Soler has sold the last of the lands which he purchased from the Government at $10,000 %, situated in Bahia Blanca. This lot comprises sixteen square leagues and has been bought by Mr. Muñoz at the rate of $200,000 % per league. Thus the seller sells for over three millions of dollars what only cost him $160,000 % three years ago.

Mr. O. Nordtmeyer has been appointed manager of Messrs. Bemberg, Heimendahl & Co., in Rosario; Mr. J. Horler, the former manager has retired.

Advices from San Luis announce the discovery of a very rich silver mine. The works on the extension are being pushed ahead with activity. The earthworks of the San Juan-Mendoza section have already reached the 40th kilometer.

The sales at the ring during official hours were:—
Cedulas—
For cash E 27,000 at 83⅜-½
For June 19th E 10,000 at 83⅝
For June 30th E 195,000 at 83½-⅝
For July 31st E 135,000 at 83½-⅝
Sales, 467,000
National Bank Shares—
For cash 150 at 103⅞
For June 30th 700 at 104
Sales, 850

The *Diario's* excellent article on the conversion and comparing the financial situation of 1876 with that of 1883 was much commented on to-day.

Nothing was reported done in exchange today.

Operations during afterhours ruled very dull; Cedulas closed at 83⅝ for the end of the month. The share market ruled a little firmer, but very little business done.

Mr. F. Bustamante has sold ten leagues of land in the 2nd and 3rd sections at the rate of $75,000 % per league; buyer Mr. Livingstone.

None of the private banks discounted in paper to-day.

Mr. Schweikart, of Pilar, was welcomed today; he states that many camps are under water thereabouts.

The sales at afterhours were:—
Cedulas—
For June 19th E 10,000 at 83⅝, buyer.
For June 30th buyer at 83½
For July 31st seller at 83⅝
National Bank Shares—
For June 30th 800 at 103⅞-⅝-½, buyer.

It never rains but it pours, and the downpour has flooded very many districts of the Province. All the low lands of the South are under water, and the sheepfarmers and estancieros are already deploring the losses of lambs. In the West and North the rain has also been very heavy; all the streams and lagunas are full, and new ones have been formed in the low camps.

In Las Flores leagues upon leagues of camp are an immense lake of water. In Altamirano, in Ferrari, Castelli, Dolores, Pila, Ajo, and especially in Vecino, the inundations are heavy.

The rise in the Salado is watched with much anxiety; the river is very swollen and has flooded its banks in many parts. Estancieros of the South are beginning to think that the flat drainage works, entailing the 'nivelacion' tax, are a farce. The Salado, at the station of the name, is rising every moment.

The rain has been very heavy in 25 de Mayo, where the Salado has flooded the camps; in Juarez, Rojas, Baradero, Azul, 9 de Julio, and more especially Ayacucho, nearly all the arroyos are overflowing.

If cold winds should begin to blow after these heavy rains, the mortality in the flocks may be expected to be very large. All the sheepfarmers have gloomy forebodings.

The bad weather has put an effectual stop to all arrivals in the Plazas. The roads outside are worse than ever. The charge for cartage from the Boca to the Once has risen one hundred per cent, and the prospects are that the drivers will not move from the paved streets for love or money. It is quite an hourly sight to see a dozen horses tugging away at a cart in the side-streets near the Plazas.

Sales of cattle are reported in 25 de Mayo at $180 % 'al corte'.

One thousand head of cattle are reported sold in Juarez at $150 % 'al corte', and 3,000 sheep at $23 %.

Advices from Carmen de Areco state that both camps and animals are in excellent condition. Three thousand capons reported sold at $42, 44 and 48 % per head.

1,500 head of cattle reported sold in Ayacucho at $160 %.

Advices from Bahia Blanca announce sales of cattle at $135 %, and heavy mortality in the flocks.

All the camps along the Southern Railway line, between Altamirano and Ferrari are reported to be under water. The Sanborombon has flooded its banks, and thousand of lambs died from the effects of rain and cold wind.

Mr. H. Altgelt, in his weekly wheat circular, gives the following:—
"Arrivals of the week:

Wheat	762,599 kilos
Flour	330,634 do
Maize	603,607 do
Linseed	4,470 do
Hay	3,304 bales

"Exports of the week:—
1,615,180 kilos wheat.
1,006,760 kilos flour.

San Lorenzo No. 57, 7x47 mts., $5,786 m/n.
Victoria, two lots Nos. 12 and 13, 7x34 mts. each, $1,000 m/n.

The R.M.S. Derwent took the following cargo:—
For Antwerp—
850 bales wool
300 pipes tallow
900 bags wheat
For London—
640 cases beef
For Santos—
1,000 bags flour
For Rio Janeiro—
206 pipes tallow
200 sheep
95 horses
And completed her cargo in Montevideo with 750 bales wool for Antwerp and 700 cases beef for London.

The R.M. steamer Tamar took the following cargo:—
For Havre—
307 bales wool
3,000 salted hides
2,000 bags wheat
For Rio Janeiro—
1,000 bags flour
900 bags potatoes
For Pernambuco—
88 pipes tallow.

The Italian steamer C. Colombo takes the following cargo for Genoa:—
9,276 hides
293 calfskins

40 tons hoofs.

The Congo took the following cargo:—
For Bordeaux—
907 bales sheepskins
7,414 hides
1,144 bags wheat
For Rio Janeiro—
199 sheep.

Messrs. Stuart, Williams & Co., shipbrokers of Montevideo, give the following shipping list under date June 3rd, 1883:—
Vessels cleared for U. States since May 31st, 1883—
Dart for New York with—
12,641 hides

The following extract from *Herepath's Railway Journal* will be found interesting; it points to a reduction in the tariff for cablegrams to Europe:

"Sir James Anderson stated at the late meeting of the Brazilian Submarine Telegraph Company, that they were now face to face with an opposition line laid along the west-coast of America, which is carrying traffic at lower rates. The effect on Jay Gould's competitor will not be felt in loss of traffic, but in reduced rates. The Brazilian Submarine will have in all probability to lower its tariff, and this may tell upon its profits, though it may also be beneficial in the long run.

"Under the present system and its charges the traffic of the Brazilian Submarine has been growing steadily year after year since its establishment, and it is to be regretted that the American light has blazed in this quarter of the globe. The public and the Company would have done very well without it.

"The Brazilian Submarine is a strong Company. It has an excellent cable, and has recently duplicated one of its long sections at the cost of its reserved fund. While doing this, and paying fair devidends it has accumulated a reserve fund of about £360,000, its whole capital, entirely represented by ordinary shares, being £1,300,000. The reserve is, therefore, a fourth part of the capital, and as the Company continues to put by £50,000 a year, plus the interest on the reserve, now a matter of importance, it is to be hoped and expected that in time its financial position will be splendid. However, we have to wait and see what Jay Gould's opposition will do. The Company is not yet suffering from it. As we have said, perchance it will not be so bad as soome expect, after all. If there be any loss from the attack the Company is unusually strong to meet it."

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 ni el prestamo menos de $f.600.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligara á pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 6 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

BORWICK'S BAKING POWDER

Used by thousands for making wholesome Bread, Cakes, Flour-Puddings, &c. Sold in 1d. & 2d. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers.

Invaluable at the Diggings and in the Bush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farm-house bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and Borwick's Baking Powder. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been 'in the trade,' and nothing I can say will convince them to the contrary."

Venta Particular.

Llamamos la atencion de los capitalistas del pais, sobre la gran propiedad utilizada para el dique de la Colonia, consta de treinta mil varas cuadradas sobre el mismo puerto de la Colonia con estension hasta la lengua del agua y de ahi hasta el canal como queda marcado en el plano, siendo la parte la mas profunda del puerto de la Colonia, pues basta saber que la fregata inglesa de guerra "Volage" ha estado anclado a una distancia de una cuadra y media de la costa.

Esta concesion fue hecha por el Gobierno Oriental a perpetuidad consta de una casa habitacion con oficinas, y dos barracas de material, cada una de ellas tiene capacidad para tres mil fardos de lana.

Como se ve, esta es una empresa de gran porvenir, no tan solo por la concesion de la parte del canal que es profundo como tambien el puerto el mas seguro en el Rio de la Plata.

La localidad se presta para establecer depositos o molino de vapor por la cantidad de trigos que se cosechan en sus alrededores.

Al mismo tiempo hay una quinta con una area de treinta cuadras cuadradas con casa de familia, caballerizas, arboles frutales, monte y bien cercada en una posicion magnifica de cincuenta varas de altura sobre el Rio de la Plata. Por mas pormenores dirigirse al Sr. Benjamin D. Manton, casilla de Correo 832.

A las 12 en punto del dia

Se dará principio a la venta por orden de su dueño el Sr. D Diego N. Carman, por falta de salud y tener que ausentarse del pais, de todas las existencias de la cabaña "El Lago."

300 animales vacunos Durham, importados y nacidos en el pais, entre las que se encuentran las celebres vacas Niñitas premiadas con los primeros premios en las Exposiciones de la Sociedad Rural Argentina y Continental, como tambien la madre y demas familia de dichos animales que no han estado en exhibicion.

Los toros Waterloo Grand Duke y Endimion son los que estan actualmente al servicio de la cabaña; el primero importado de Inglaterra, por el Sr Downes, y el segundo remitido por el Sr Elia, por el cual se nos pago 25,000 ps., siendo uno de los animales que mas han llamado la atencion de los criadores mientras estuvo en nuestra casa y con sobrada razon escribio el Sr Elia, "que mandaba animales en los cuales tenia la seguridad de perder dinero" probandolo el hecho de no haber repetido sus remesas.

200 ovejas y carneros Lincoln, siendo una parte de ellos importados expresamente para esta cabaña, de la del Sr Clark en Inglaterra como tambien los padres que las sirven. Estos animales seria demas recomendarlos, pues ningun criador de esta raza en el pais, ha alcanzado los precios obtenidos por esta cabaña.

EN SEGUIDA

Caballos, petizos, cerdos, un tilbury de 4 ruedas y una volanta de 6 asientos, americanos verdaderos, guarniciones, etc, etc., 1 carrito ingles, 1 carro mas, 2 carretas de bueyes, 5 maquinas de segar alfalfa, 1 id para dar vuelta al pasto de las que hay muy pocas en el pais, 1 rastrillo de caballo de acero, 2 maquinas de quebrar grano, 1 de aventar, 1 piedra de afilar, arados sobre ruedas de sanjear y simples, todos de acero, 1 fragua, vigornia, torno, banco de carpintero, piedra y todos los utiles necesarios para una herreria, y carpinteria e infinidad de objectos para el trabajo de un establecimiento de campo.

Este establecimiento solo dista una legua de San Fernando, lo cual facilita el embarque de animales para los rios o el Estado Oriental casi sin gastos y la proximidad a la ciudad facilita el trasporte de los animales por cuales quiera de los Ferro Carriles.

Siendo todas las vacas de esta cabaña mansas, pueden ser destinadas para leche o para raza.

NOTA IMPORTANTE—En la Estacion San Isidro habra carruages para conducir la concurrencia, á lo que se ruega haga su viage por los trenes que salen de Central a las 7.30, y 9.55 a.m.

El Remate se suspendera solo por lluvia el mismo dia señalado para la venta.

NOTA IMPORTANTE—Para facilitar a la concurrencia las mayores comodidades les avisamos que la Empresa del Ferro Carril a Campaña pone un tren extraordinario los dias Domingo y Lunes los que saldran de Central a las 10 a.m. cuyo tren parara en el paraje llamado Ombu, distante 10 cuadras de la cabaña. Este tren regresara de ese paraje a las 5 y 30 p.m. y el boleto de ida y vuelta solo costara $20.

DE LOS
Sres. Eduardo Olivera y Herms.

Deseando evitar a los Sres. Criadores la molestia de hacer un viaje inutil a la cabaña arriba mencionada, en busca de animales reproductores, les prevenimos que, como en años anteriores todos sus productos seran vendidos en Remates publicos, en nuestra casa Alsina 78 debiendo efectuarse el primero de estos el 1° de Agoste prox. con un esplendido lote de sus

A los Señores Hacendados.

Les participamos que el Jueves 20 de Setiembre, queda fijado para el remate de este año de los carneros Negrete Argentino procedentes de la cabaña "El Rosario" de los Srs. Francisco Chas e hijos.

Les recordamos que la raza nueva Negrete Argentino ha sido obtenida mediante una observacion concienzuda de treinta años sobre lo que conviene mas al pais por el tamaño, por la robuztez y por la lana cuya abundancia largo y finura no dejan nada que desear encontrando nuestras palabras su mejor comprobacion en los productos de la cabaña El Rosario, vendidos o exhibidos hasta la fecha.

Los Sres Chas procurando que los compradores ahorren gastos de cuidado etc. han fijado el espresado dia para el remate a fin de que los animales pueden ser empleados inmediatamente de adquiridos (1 de Octubre). Desde luego garantimos que los carneros que venderemos son sobresalientes, como tambien que de igual modo que en los años anteriores, sera el unico remate que los Sres. Chas daran en el presente año.

78—ALSINA—78
El Jueves 28 de Junio 1883
A las 2 p.m.

Estos campos estan situados en la IV Seccion de tierras Nacionales—zona que corriendo hacia el Oeste entre los fuertes Argentino y Puan, y a poco mas de 20 leaguas de Bahia Blanca, es reputada como de los mejores campos del Sud.

Los campos son de pastos abundantes, mezclados y tiernos, y el agua se encuentra con facilidad en todas partes, muchos de los lotes teniendo aguadas permanentes de riquisima agua.

Los informes sobre la calidad de este magnifico campo se encuentran en el Departamento de Ingenieros Nacionales y copias de ellas estan a la disposicion de los interesados en nuestra casa.

La situacion de estos campos no puede ser mejor; es una seccion que va a ser cruzada por varias lineas de ferro carriles cuyas concesiones deben ser despachadas por el Congreso en este año y sus arranques son el gran puerto de Bahia Blanca, llave principal de la inmensa campaña Sud, destinado a ser la California de la America del Sud.

El gran Ferro Carril del Sud, cuyos terraplenes llegan ya a Bahia Blanca que quedara abierta al trafico dentro de 4 a 5 meses, pasando a pocas leguas de Puan dejara los campos que ofrecemos en venta a un dia de distancia y puede facilmente preverse el impulso que dara a ellos asegurandoles un brillante e inmediato porvenir.

Tiene por linderos capitalistas los Srs. Cambaceres, Drysdale, Tornquist, Jaime Cibils y Buxareo, Pedro Saubidet, Saturnino Unzue y otros que a no dudarlo van a formar grandes establecimientos de campo, que forzosamente aumentaran el valor de los campos linderos.

La venta sera liberal, sin base de ningun genero y condiciones ventajosas para el pago, Una tercera parte al contado y el resto a uno, dos, y tres años de plazo con interes del 7 o/o anual y pagares hipotecarios.

Por planos, y permenores ocurran a nuestra casa Alsina 78.

ESPLENDIDOS CAMPOS
Sin Base.

Terminada la venta de las 44 leguas de la IV Seccion, procederemos al remate de 12 leguas kilometricas situadas en la VII Seccion fraccion C. num. 7, 8 y 13, lindando por el Sud con el lote num. 18, propiedad del General D Nicolas Levalle, al Este una gran area de cien leguas del Sr D. E. Casey.

El campo que ofrecemos en venta es de superior calidad, por toda recomendacion solo diremas, sino que aqui tuvieron sus tolderias las tribus de Pincen, pues es sabido que los indios no se establecen sino en los campos superiores.

Hay en estos terrenos buenos Montes de maderas duras, que es una gran ventaja para la formacion de poblaciones, corrales etc. y estan cruzados por dos caminos.

El ferro carril proyectado a Trenque-Lauquen y de alli al interior, cruzara estos campos por una esquina. La venta se hara sin base.

Dinero de contado.

El Miercoles 20 del corriente
A las 3 en punto de la tarde

Remataremos a las mas alta postura y dinero de contado, por orden terminante de su propietario.

La gran Finca arriba señalada, edificada en terreno de 47 vs de frente a la Avenida S. Lucia formando esquina a la calle de San Luis donde tiene 210 vs de frente hasta llegar a la calle Herrera sobre la cual tiene 35 vs de frente.

Las construcciones son:

Una casa de familia en la esquina haciendo cruz, con la Estacion del ferro carril de la Ensenada, 3 esquinas, compuesta de 4 piezas de tabla con cielos razos empapelados, dos piezas mas pisos de tabla, cocina, 2 letrinas, algibe dos patios embaldosados y una huerta en el fondo gran parral en el primer patio.

Esta casa hace 8 años que esta habitada por el mismo inquilino y produce 800 ps al mes.

La gran barraca con 4 piezas al frente, 2 mas de madera en el patio con techo de teja francesa, jardin y gran porton de fierro a la calle, inmenso patio con capacidad para 30 o 40 carretas con frutos, pileta para envenenar cueros, un gran galpon con paredes en cal, con techo de tipa, piso de madera de 20 vs de ancho por 140 de largo, con dos altillos en cada extremidad sobre vigas de maderas duras, prensas para enfardelar una caballeriza para diez caballos, deposito para pasto con techo de teja francesa alquilada con contrata en 4750 frente a la calle Herrera, una casa esquina, con almacen y trastienda 3 piezas mas pisos de baldosas, cocina, lugar y pozo.

Otra casita continua con 4 piezas, cocina y lugar, ambas con dos patios embaldosados, que producen 750 pesos al mes.

En seguida dos casitas, mas una con tres piezas, lugar, cocina, patios embaldosados y pozo medianero, produciendo 300 pesos mensuales.

Todo lo cual forma una renta total de 6000 pesos por mes, con alquileres, como se vé, sumamente modicos y que representa un interes seguro de 12o/o al año sobre los 650,000 pesos que es la base fijada para la venta.

No parece de todo punto, por demas, enumerar las grandes ventajas que ofrece esta propiedad, llamando unicamente la atencion de los capitalistas sobre la immediacion de ... Puente de Barracas y Riachuelo distando de la Rivera una cuadra escasa.

Los muelles de descarga estan construidos hasta la Barraca Balcarce. Antes del fin del año, estaran terminados hasta el Puente de Barracas.

Aquella localidad está distenada á ser el gran deposito de mercaderias de la Capital y ademas las grandes areas de terreno, que unicamente se encuentran alli, seran ocupadas con breve plazo por las grandes industrias que se van levantando de dia en dia.

Pocas veces se ha ofrecido una propiedad en mejores condiciones y con las vastas dimenciones que tienen esta.

El Domingo 1 de Julio 1883
A las 2 de la tarde

Procederemos, por orden terminante de sus dueños, a vender en remate publico y bajo la base arriba mencionado, en nuestro casa, calle Florida 22, segundo patio, una y media legua de campo, apropiado por la calidad de sus pastos para la cria de ganado lanar y vacuno.

Este campo dista 5 leguas del Saladillo, donde pronto llegara el tren, 8 del Pueblo de las Flores y 6 de la Estacion Colorado, del ferro carril del Sud, lindando con los Señores Goan y Jose M Pinel, Laguna Chica y Sres. Lozano y Santillan.

Cada puesto pagan por un radio de 100 cuadras de 5 a 6000 m/c por año, siendo sumamente baja la base fijada con relacion a la venta que produce y a que estos campos jamas se inundan.

Inutil creemos llamar la atencion de las personas que se dedican a la cria de ganaderia sobre la bondad de estos campos, pues pocas veces se ofrece la ocasion de encontrar tan buenos en venta

The Colony in Gainza
Lands payable at eight years' credit without interest.

We have just concluded the sale of the 56 leagues of land we offered in Gainza at $250,000 m/c per league, payable 10 o/o or say $25,000 m/c cash, and the balance in eight yearly payment of $28,125 m/c without interest; last payment comes due in 1891; 28 purchasers of all nationalities bought these 56 leagues.

The land is noted for its goodness, and Clark's railway from Buenes Aires to Valparaiso passes near it, and will place settlers within reach of this city in one day.

The purchasers of these lands will probably double their capital in five years, although they have eight years to pay for them; because in the hands of 28 proprietors, in 5 years time we shall see all the elements of pastoral and agricultural progress firmly fixed in this colony.

We have still some 20 Leagues for sale, and we invite sheep and cattle farmers whether half-leaguers or ten-leaguers, to come to our office to 178 Calle San Martin to see the plans and study this business.

"Zig Zag Harrows'

Messrs. M. FORRESTER & Co.

Beg to inform the Public that they have just received large consignments of

Ploughs (Two and Three Furrow) and Zig Zag Harrows

Of the well-known

HOWARD Brand

These Harrows are made of the best wrought iron, specially rolled for the purpose, and the tines, which are all steeled, cut a separate track at a uniform distance. By means of a simple patent "guard" the nuts are prevented from shaking loose.

The fact that Messrs HOWARD have sold upwards of

250,000

"Sets of Harrows" is a sufficient proof of their superiority and excellence.

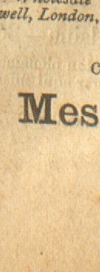

These Harrows have "always" gained the First Prize in competition with others.

Sev sizes are in Stock.
